NINE

HONOLULU SHRINERS OFF TO MEET IMPERIAL POTENTATE AND PARTY

Aloha Temple's Delegation to
Greet Visitors on Arrival
at Hilo

Headed by Potentate Thomas E. Wall of Aloha Temple, a reception committee of Honolulu Shriners left this morning at 10 o'clock on the inter-island steamer Mauna Kea, for Hilo, where they will assist the Hilo nobles of Aloha in welcoming Imperial Potentate J. Putnam Stevens of the Mystic Shrine and his party, who are due to reach Hilo on the Great Northern at 9 o'clock tomorrow morning.

There will be plenty of things for the visiting Shriners to do and see when they land at Hilo tomorrow. They will be taken on an automobile ride to Kilauea volcano, and later in the day to scenic Paauilo. Departure of the Great Northern from Hilo will be at 1 o'clock Friday morning instead of midnight, in order to allow plenty of time for everyone to return to the ship.

Arriving here at 11 o'clock Friday morning, the visitors will be met at Pier 6 by the Arab Patrol of Aloha Temple, which will extend greetings of true Hawaiian hospitality to the Imperial Potentate and his party, numbering 85 persons, includes the

nobles' ladies.

Friday night there will be a luau for the nobles and their ladies, at the Seaside, at which the nobles of Aloha will be hosts.

At 1 o'clock sharp Saturday afternoon the procession will start from Masonic Temple. A feature of the procession will be a dozen "united" candidates for the perilous journey over the "hot sands." The ceremonial session will be held in the old skating rink, where the initiation will take place.

While the visiting nobles are attending the session, their ladies will be entertained with an afternoon tea given by the ladies of Aloha Temple Country Club. Saturday night the nobles will be guests at the Shrine banquet.

Sunday morning at 9:30 sharp the party will be taken in automobiles from the Young Hotel on a motor ride around the island. There will be a buffet lunch at L. L. ("Link") McCandless' place at Waikane, and luncheon will be served the party at Halewa Hotel, about 1 or 2 o'clock. The return trip will be made in time to arrive here late in the afternoon.

Monday night at the Moana a ball will conclude the festivities. The party will leave on the Great Northern Tuesday afternoon at 4 o'clock for San Francisco.

CASH SHORTAGE THREATENS TO CRIPPLE CITY

First Draft of Memorial Asking
for Special Session
Points Out Needs

Mayor Lane has in his hands today the first draft of the proposed memorial to the governor setting forth the reasons for a special session of the legislature to consider the needs of Honolulu.

Some time this week the committee appointed by the supervisors to get the memorial in shape will meet and will set 27 pages down to a more digestible mass. Francis M. Hatch, the new supervisor, is to be appointed on the committee to succeed R. W. Shingle, resigned.

In the main, the first draft of the memorial tends to show that the needs of the city have increased and additional financial burdens have been placed on it, both by the legislature and the force of public opinion, without an adequate increase in its revenues.

"Relief must be given the city or else the board of supervisors will have to cripple the municipal government to escape violation of the criminal law," says the document.

Must Stop All Charities.

"The board will have to be done away with; all road work must cease; all contributions to charity must be stopped; all salaries not provided for by law must be reduced, and the number of employees of the city must be reduced." To avoid all of this trouble the memorial asks that the governor call a special session of the legislature to provide relief for the city.

Many tables of figures are contained in the document most of them demonstrating that the expenditures of the city have necessarily increased, but that there has been no corresponding increase of revenue.

The total amount of money available for expenditure was less in 1915 than in any year since 1910, tables show. Every board of supervisors with the exception of the last board left to its successors a large balance. Expenses of every department of the government have increased, from "roads" with its \$280,000 to "donations" with its \$54,000.

There is no possibility of the city's income being enlarged under the present tax laws, the document points out. It is limited to two-thirds of one per cent of the assessed valuation.

Sinking Fund Needs.

Necessary expenditures which did not exist prior to 1915 are shown to have amounted to \$45,698, and the increases for 1916 will amount to \$53,356. Forty-five thousand dollars or more has to be set aside each year for several years to establish a sinking fund, although the city has not enough money to meet current expenses.

The sewer department is not now on a paying basis. If a general sewer tax was levied sewer extensions could be made before pavement is laid, and there would be immense savings.

Successful administration of the school budget provisions of the law is impossible on account of a conflict between Acts 8 and 90 of the laws of 1915. The frontage tax laws need revision in many details that impose unnecessary hardships on the city and contractors.

All these things are set forth as reasons why Honolulu needs the relief to be afforded by a special session of the legislature.

NEW SUPERVISOR IS
NOW READY FOR WORK

Judge F. M. Hatch, who last night was installed as a member of the board of supervisors, succeeding R. W. Shingle.

BOARD CONFIRMS MAYOR'S CHOICE; HATCH IS MEMBER

"I do."

By the utterance of these two words, Francis M. Hatch was last night made a supervisor of the city and county of Honolulu. With his colleagues and a number of the city department heads standing around him, he took the oath of office at 7:50 o'clock and sat through the rest of the meeting as a member of the board.

Mayor Lane submitted his appointment of Mr. Hatch as a successor to Robert W. Shingle, resigned, at the opening of the meeting.

"It is a matter of gratification that one so prominently identified with the business interests and with Hawaiian affairs, and jurisprudence should accept the proffer of a supervisorship in the city and county, and I am sure his services will be of inestimable value to the community," Lane declared.

Confirmation of the appointment was made by the board on motion of Supervisor Arnold, and Supervisors Logan and Arnold escorted the appointee into the board room. Henry Van Gleason, deputy county clerk, administered the oath of office, notice that his bond had been filed and approved was read by the clerk and the city and county had a new supervisor—Supervisor Francis M. Hatch.

The difference in cost between a waste-basket catalogue and one that will sell the goods is slight—so slight that you cannot afford not to pay it. Catalogues printed Star-Bulletin way compel respect, and get the results you seek.

THE AD MAN.

Tests were filed, but they were held not germane to the subject under consideration and were disregarded by the board.

Sea View property owners who brought their petition for improvement of the district before the board at the last meeting, were granted all they asked when the board instructed the engineer to proceed with plans for the improvements in the district, giving their consent in behalf of the frontage of the College of Hawaii—14.9 per cent of the total. This was necessary as there was but 43.4 per cent represented on the petitions, and if the city had thrown its frontage with the protesters, Fred L. Waldron and others, the improvement would have been blocked.

James T. Taylor brought in a request to the board that it proceed with the paving work in the Nuuanu valley district as proposed some time ago. His request was referred to the road committee.

DENTIST'S "ALTER EGO" COMMITTED THE CRIME

NEW YORK, N. Y., March 29.—Dr. Arthur Waite, the dentist accused of having poisoned his father and mother-in-law, denied the charge in his civil trial at Bellevue Hospital last night, and declared that his "alter ego," who is a "little bad man from Egypt" was the individual the police must catch if they want the really guilty party. "The little Egyptian is the one who has done all the wrong," said the dentist.

WILL MAINTAIN OLD PRICES IN SPITE OF COST

Laundrymen Hard Hit By Scarcity
of Commodities to Stay
By Same Figures

Though admitting that their business has been hard hit by the war's high prices, all but one of the local laundrymen consulted by the Star-Bulletin deny that they may soon raise the price of work. It has been rumored that laundry prices might be raised considerably.

J. C. Rapier, manager of the Alexander Young Hotel Laundry, stated definitely that no increase in prices is contemplated by his firm. "We intend to stand by our prices in spite of the high cost of materials," he said.

Abadie, manager of the French Laundry, made a similar declaration of maintaining the standard prices of his company. Charles Kaiser of the White Seal Laundry stated that no increase in prices is contemplated in the near future at least. Albert Reinicke, manager of the American Sanitary Laundry, would make no statement at the present time as to whether a raise would or would not be made by his firm.

Perhaps no local business of any extent has been so directly affected by the war's increase of prices as has the laundry business. All of the managers consulted in the matter express this fact emphatically.

Have "Gone Out of Sight."

Bluing, starch, washing soda, wrappings, paper, acids, gasoline and numerous other commodities have gone "out of sight," as one manager puts it.

"Vegetable bluing for which we paid \$2.55 a pound at the beginning of the war has now gone to \$14 a pound," declared Mr. Kaiser of the White Seal. "This is because the material from which it is made comes from Germany."

"Washing soda has gone up from \$2.10 a hundred pounds to \$3.80 a hundred. Starch which formerly sold for 6 cents a pound now sells for 10 cents a pound. Paper has increased in price at least 100 per cent, and this is one of our biggest items, as much as required in wrapping the laundry."

Manager Rapier of the Alexander Young Laundry service played wise at the beginning of the war, and purchased in large quantities the bluing which he saw already starting upward.

Much of this bluing, he says, is mineral which cannot now be purchased in the United States. The mineral blue has been raised from \$4.85 to \$50 for the same amount. London Pays Huge Price.

"Recently at an auction sale in London," says Mr. Rapier, "a keg of this bluing which had formerly been worth about \$50 sold for \$1491, and this is characteristic of the high prices asked for it in other places."

"Soap has increased in value from 4 cents a pound to 6 cents a pound, and shows no sign of lessening in price. Starch has gone up and paper has jumped more than 100 per cent."

"Oxalic acid, which used to be considered high at 8 cents a pound is now 98 cents, and bids fair to soon pass the \$1 mark. For six weeks none of the acid could be purchased whatever. We use this in bleaching stains."

In addition to the other materials, cloth which is used on the rollers and which is of an especially fine make, has also risen. This must be frequently replaced as the wear on it is great.

According to figures from the various laundrymen, the entire increase in cost of running their business is about 200 per cent since the war began.

TO START FEDERAL BANK IN PHILIPPINES

[Associated Press by Federal Wireless] SAN FRANCISCO, Cal., March 29.—H. Parker Willis, secretary of the Federal Reserve Board, left here in the liner Tenyo Maru yesterday, bound for Manila, where he will establish a Philippine Insular Bank, intended to stimulate the imports of the islands. It will also act as a domestic bank for the Philippines, under governmental supervision and control.

CANADIANS INDICTED FOR FRAUD CONSPIRACY

[Associated Press by Federal Wireless] WINNIPEG, Manitoba, March 29.—Sir Redmond Robinson, former premier, Cabinet Members Coldwell and Howden, and contractor Thomas Kelly have been indicted on a charge of conspiracy to defraud. The alleged plot is said to be in connection with the erection of the Manitoba parliament buildings.

VIRGINIA SOLON WANTS AEROS FOR COAST GUARD

[Associated Press by Federal Wireless] WASHINGTON, D. C., March 29.—Congressman Montague has introduced a measure appropriating \$300,000 for the establishment of an aerial corps for the Coast Guard service. The bill is now in committee.

Foreign built vessels admitted to American registry since June 30, last, number 36, of \$6,167 gross tons.

BEET GROWERS CANNOT THRIVE WITHOUT TARIFF

Federal Commission Report
Says Protection Necessary
to Compete With Cuba

[Associated Press by Federal Wireless] WASHINGTON, D. C., March 29.—A report of the federal trade commission, now before the senate, declares that protection is needed if one-half of the American growers of sugar beets are to be able to compete with the raisers of Cuban sugar cane in the open markets of the country. The other half, says the report, in the opinion of the commissioners, will not need any assistance.

The commission has been studying the physical and financial conditions of the beet sugar industry, but will make no recommendations to the senate.

The report merely will state that American growers are being gravely hampered by the conditions under which they are forced to work, but will be able to meet the competition of Cuban sugars under a tariff of one-third to one-half cent per pound.

IN WAR ARENA

SCOTCH STRIKERS FACE
CHARGE OF HIGH TREASON.

LONDON, Eng., March 29.—A widespread conspiracy to foment strikes in the government munition plants by the leaders of the so-called "Clyde Workers' Committee," was exposed in parliament last night by Dr. Christopher Addison, under secretary of state for munitions, and assistant to David Lloyd-George.

The organized policy of strike promotion, of which the men stand accused, said the doctor, justifies the charge of high treason in that they "have been assisting the king's enemies."

It is claimed that six members of the committee stopped the work that was under way in five of the larger gun factories, where the cannon much needed at the front were being rushed to completion, in order to compel the government to repeal the munitions and military service acts. The military authorities, added Doctor Addison, have removed these leaders under the defense of the realm act.

BLIZZARD SWEEPS THROUGH ENGLAND.

LONDON, Eng., March 29.—The worst blizzard of the present generation is sweeping western England and Wales. Last night London was wrapped in a mantle of sleet, and the Midlands counties were reported suffering greatly. Two persons are reported to have lost their lives in the storm and 20 others have been seriously, if not fatally injured. All communication between Liverpool and Birmingham, where the center of the storm passed, has been cut and wires are down in many parts of the United Kingdom.

GERMAN TORPEDOER SUNK BY BRITISH CRUISER.

LONDON, Eng., March 29.—While the German submarine campaign against merchantmen continues to add one or two victims daily to the list, the British navy yesterday managed to score against the enemy. The cruiser Cleopatra, on patrol duty in the North Sea, rammed and sank a German torpedo-boat destroyer off the German coast. The destroyer sank immediately, every member of her crew being drowned.

ALLIES DETERMINED TO FIGHT TO BITTER END.

PARIS, France, March 29.—Once more the Entente Allies, through their representatives who assembled here yesterday for another international conference upon the military and political conditions of the great struggle, have reaffirmed their determination to "continue the struggle until we achieve victory for our common cause."

RECIPROCITY CLAUSE ADDED BY HOUSE TO IMMIGRATION BILL.

[Associated Press by Federal Wireless] WASHINGTON, D. C., March 29.—The house of representatives yesterday added a provision to the Burnett Immigration Bill, providing that restriction by any other country of immigration into that country from the United States shall automatically operate reciprocal restrictions on the immigration from that country into this.

BRANDEIS' OPPONENTS SAY "SHARP PRACTISE"

[Associated Press by Federal Wireless] WASHINGTON, D. C., March 29.—The opposition to Attorney Brandeis, the president's nominee for the vacancy upon the bench of the supreme court, fired its last shot yesterday. It filed a brief declaring that the evidence taken by the senate subcommittee proves that Mr. Brandeis has been guilty at various times of "sharp practise" and of having violated the ethics of the legal profession, as well as having convicted him of "duplicité." The subcommittee will vote upon the nomination Saturday.

GEN. PERSHING COMMANDEERS RAILROAD LINE

Villa Reported to Be Headed for
Friendly Country South
of Chihuahua

[Associated Press by Federal Wireless] WASHINGTON, D. C., March 29.—Despatches from the American expedition in Mexico report that Gen. Pershing, without waiting for formal permission from the diplomats, is now using a portion of the railroad of the Northwestern line. These advices, which are unofficial, tell of the first casualty of the campaign against Villa in the American ranks.

George Hudnell, a trooper of the 10th Cavalry, with nine others of his fellow soldiers, was injured when two freight cars overturned on a siding south of Casas Grandes. Three of the men were seriously injured, and Hudnell died of his wounds.

In Congress yesterday the need for additional airplanes in Mexico was recognized and 24 more were authorized and provided for by appropriation.

Late despatches last night indicated that Villa and his bandits are headed toward San Andreas, 25 miles southwest of Chihuahua, and it is believed in El Paso, where the report comes from, that the robber leader hopes to be able to reach refuge in Parral, in the Torreon district, one of the sections of Mexico where there are still many of his adherents.

ASSEMBLY MEMBERS DENOUNCE YUAN AS TRAITOR TO COUNTRY

[Associated Press by Federal Wireless] SHANGHAI, China, March 29.—That Yuan Shih-kai is a traitor to his country and must be deposed and expelled, is the gist of a formal declaration issued yesterday by 37 members of the national assembly, who have pledged themselves not to rest until they have succeeded in depriving the president of his power. Gen. Lung Chi Kwang and Gen. Chang Hsun have issued a statement declaring that they intend to hold themselves neutral in the contest between the Peking and Yunnan governments.

In Japan there are 192 people for every 40 acres of land and 256 cows, 256 donkeys and 12 swine for every square mile of land in the kingdom.

FROM THE ISLAND EXCHANGES

Judge Parsons' Successor.

Genuineness of the regrets expressed to Judge Charles Parsons is not to be succeeded cannot be doubted. After 12 years as the fourth circuit judge the laymen as well as the attorneys have much admiration for his eminent legal attainments. Also it is true no doubt that there should be a better way of selecting our judges than by political preference, but so long as that is the custom Judge Parsons will bow gracefully to the rule, as he will not forget that it was "politics" which elevated him to the bench and retained his services so long for the community. "Politics" it may be which again will place him on the bench.

For his successor the community should retain its judgment until it knows him better, as he will probably retain his judgment of the community. Honolulu criticism of the appointment is that he has not been considered before as being of judicial timber. We interpret this to mean he has not had previous judicial training. This he will gain after he dones the ermine robes, as did Judge Parsons, or as would be necessary for any other attorney elevated from the ranks to a judgeship.

Eight years ago, when Attorney

Quinn began the practise of law in Honolulu, it was freely predicted that he would not succeed. The practise he enjoys there today and his selection for the judgeship appointment by the Wilson administration belies the prediction. And likewise, we expect to see the scoffers of today become his admirers after he has served as judge of this circuit. Possessed of a character which is not easily pliable and a mind open to truth, with a great capacity for concentration and study, we expect to see Mr. Quinn make as good a record as a judge as he has as an attorney. This, however, only his career on the bench will prove or disprove.

A member of the Hilo Bar Association has said that Mr. Quinn will come to Hilo without an enemy among the attorneys and that he will be received with an open mind. We speak the general public to grant him a like reception.—Hilo Tribune.

The town gasped over the judicial appointments, "one of the Honolulu newspapers states. It probably did take their breath away when Honolulu learned that the president had acted as he pleased, without consulting their recommendations.—Hilo Tribune.

NEW DIRECTORY TO BE ISSUED

A new Telephone Directory will shortly be published.

Written notice of any desired change of name or address must be received by this company on or before March 30, after which date no changes will be made until the following issue. MUTUAL TELEPHONE COMPANY. —Adv.

HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION

By a Stomach Specialist

As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble, that which causes all the pain and difficulty, is excessive acid in the stomach, aggravated by food fermentation. Hyper-acidity irritates the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally, causing that full bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all such cases—and they comprise over 90 per cent of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of bisulphated magnesia, which is doubtless the best and only really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure to ask your druggist for the bisulphated magnesia, as I have found other forms utterly lacking in its peculiarly valuable properties.—F. J. G. For sale by Benson, Smith & Co., Chambers' Drug Co., and Hollister Drug Co.—Adv.

FOOD SOURING IN STOMACH CAUSES INDIGESTION, GAS

"Pape's Diapepsin" Ends All
Stomach Distress in Five
Minutes

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour gassy and upset, and what you just ate has fermented into stubborn lumps; head dizzy and aches; belch gases and eructate undigested food; or even foul, tongue coated—just take a little Pape's Diapepsin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest most harmless relief is Pape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.—Adv.

SEEKS GOLF UNIFORMITY.

Western Association Wants Set Rule
For Handicapping Players.

In a circular mailed recently to all member clubs the Western Golf association makes a plea for uniformity of handicapping rules for all tournaments. Following is the system adopted:

Medal play—Ascertain the average of a player's five best scores and allow for his handicap 80 per cent of the difference between his average score and par for the course.

Match play—Three-quarters of the medal play figure.

The submarine E-2 shattered in an explosion of the new Edison submarine batteries, will be used as a laboratory where investigations of the batteries will be continued.

LUSITANA, BEACH WALK, SEA VIEW ALL GO FORWARD

Lusitana, Beach Walk and Sea View improvement projects all went one step further by action of the board of supervisors last night. In fact, Beach Walk went three steps further.

The original resolution was altered so as to read "reinforced concrete with a darkened surface" instead of "bituminous" wherever the kind of pavement was mentioned, the engineer's preliminary report was adopted and a public hearing called.

The total cost of the district improvement will be \$34,432, according to the engineer's estimate. Of this \$2,673 is for 6940 feet of new curbing at 45 cents a running foot to be charged against the abutting property. This leaves \$31,759 to be assessed on an area basis. There are 646,000 square feet in the district, making an assessment of .049,163 per square foot.

The city will have to pay \$562.50 in assessments for various frontages. Maps Now On File.

Maps showing each piece of property in the district and the amount assessed against each are on file in the engineer's office and subject to inspection. Property owners have until April to file protest against the plans as made. Public hearing will be held on that date.

Lusitana street hearing was held and the engineer and attorney instructed to proceed with the next steps in the project the creation of an assessment ordinance. Two pro-
